Dear Applicant:

Thank you for your interest in providing potential consultant services for Utah Department of Transportation (UDOT).

### **Consultant Services**

We are a division of Utah Department of Transportation (UDOT); a highly motivated team, charged with providing UDOT project managers with the most qualified consultants to perform a wide range of services to maintain Utah's transportation network. We are the link between UDOT project managers, FHWA, and private industry.

### **The Consultant Pool**

UDOT's pool period is for two years. Our current pool period is from July 1, 2007 to June 30, 2009. Every two years, UDOT advertises a Request for Qualification (RFQ) seeking qualified consultants to submit Statements of Qualification (SOQ). The next RFQ will be advertised in April 2009. Consultants in the 2007-2009 Pool have the opportunity to acquire numerous contracts over the 2-year period, totaling up to \$4.3 million dollars.

UDOT has two major pools – General Engineering (GE) Pool and Local Government (LG) Pool - which provide opportunities for consultant services.

#### GE and LG Pool.

UDOT's 2007-2009 General Engineering and Local Government Pool consists of twenty-seven (27) separate work disciplines. The following is a list of work disciplines in the 2007-2009 pool: Aerial Photogrammetry; Bridge Design; Bridge Management/Asset Management; Constructability Review; Construction Engineering/Management; Dispute Resolution Review; Environmental/NEPA Document Preparation (with sub-categories); Geotechnical/Hydrogeology; Hazardous Materials/Waste Assessment and Remediation; Intelligent Transportation Systems (with sub-categories); Landscape Architecture; Major Hydraulic Design; Materials Testing; Minor Structure Design; Partnering Facilitation; Pavement Design; Planning; Preconstruction Engineering; Public Involvement/Operational/Project/NEPA; Research Studies/New Development; Right of Way Engineering; Schedule Analysis and Claims Review; Subsurface Utility Engineering; Survey/Mapping; Traffic Signals/Roadway Lighting (with sub-categories); Value Engineering; and Visualization/2D/3D/4D. These disciplines are subject to change for each pool period according to Department needs.

## **Acquiring a contract to perform services for UDOT**

Firms interested in providing specialized services as a prime Consultant or as a Sub-Consultant need to be aware of the three sources of services – 1) the above listed pools, 2) Project Specific RFQ's and LOI's, and 3) Local Government Engineer of Record projects - and respond appropriately. More information regarding the three sources of work may be found at the Consultant Services web page: [www.udot.utah.gov/go/consultantservices](http://www.udot.utah.gov/go/consultantservices).

Interested firms should become aware of UDOT's Statewide Transportation Improvement Program (STIP) and the Consultant Service's Manual of Instructions (MOI). These resources will greatly assist firms in determining needed governmental services and provide instructions to the firm on the qualification process in applying for the listed consultant work.

The STIP is available on-line under >Public >Projects and Studies >5 Year Plan --STIP on UDOT's main web page located at [www.udot.utah.gov](http://www.udot.utah.gov). The Consultant Services MOI is available for downloading from the Consultant Services' web site at [www.udot.utah.gov/go/consultantservices](http://www.udot.utah.gov/go/consultantservices).

For future Local Government projects, firms should contact the Senior Program Manager in the applicable UDOT Regional Office. Interested firms may sign up as a Consultant Services E-mail subscriber at [www.udot.utah.gov/go/subscriptionlist](http://www.udot.utah.gov/go/subscriptionlist) to receive Department updates regarding projects and other valuable information.

## **Financial Screening**

This is a necessary process for consultants desiring to provide services for UDOT. There are two methods, or choices, to accomplish the screening requirement: 1) UDOT Consultant Services will perform a pre-award audit of prospective consultants' financial records to determine a fair overhead rate, or 2) Consultant Services will accept a pre-award audit performed by another state acting as the cognizant agent. In either method, once an overhead rate is agreed upon between the consultant and Consultant Services, the rate remains effective for one year.

Consultant Services Audit. Consultants must be financially screened within 14 days of selection for any project. Interested firms must provide the necessary financial statements, the Financial Screening Application, and Screening Questionnaire, to UDOT's Consultant Services Division. The Application and Questionnaire may be downloaded from the following web site – [www.udot.utah.gov/go/csforms](http://www.udot.utah.gov/go/csforms) - or you may contact Mike Hanni, Consultant Services Financial Analyst, at (801) 965-4138 or by email at [mikehanni@utah.gov](mailto:mikehanni@utah.gov).

Cognizant Agent Audit. Consultants must provide the Consultant Services Division an official letter from another state. The letter must contain a statement with the following information: 1) approval of the consultant's overhead rate, 2) the overhead rate was in accordance with the Federal Acquisition Regulations (FAR), and 3) the fiscal year (ending date) of the financial records used to develop the state's audit.

In addition to providing the above statement the consultant must complete and provide Consultant Services with a completed Financial Screening Application and Questionnaire, located at the above web site.

Consultants may submit their financial screening application to Consultant Services at any time. Consultants are not required to complete the screening process unless they are selected or awarded project work. Firms are not required, nor is it necessary, to become financially screened if they are already under contract with UDOT.

**Utilization of Disadvantaged Business Enterprises (DBE) is encouraged** by the availability of a DBE listing and application form located on UDOT's main web site under "Quick Links" menu (Civil Rights) [www.udot.utah.gov/go/civilrights](http://www.udot.utah.gov/go/civilrights), see also DBE Directory under "Downloads". Consultants should consider this list for possible project work. UDOT encourages prime consulting contractors to use DBE's as subcontractors where practicable. You may also request information from the Utah Department of Transportation, Civil Rights Division, PO Box 141520, Salt Lake City, Utah 84114 or by calling (801) 965-4102.

It is the policy of the Utah Department of Transportation (UDOT) that no person in the United States shall, on the grounds of race, color, national origin, or sex, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Utah Department of Transportation receives Federal Assistance from the Department of Transportation including Federal Highway Administration. (Title VI of the 1964 Civil Rights Act, 42 U.S.C. 2000, section 601)

The Age Discrimination Act of 1975, 42 U.S.C. 6101, provides: "No person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." (Prohibits discrimination based on age.)

Once again, we appreciate your interest in UDOT and look forward to working with qualified firms. For any questions or concerns when completing the financial screening process, please contact me.

## **FINANCIAL SCREENING PROCESS**

Financial screening is required for firms interested in becoming eligible for UDOT projects. The screening process can be accomplished at any time. Successful completion of the financial screening process does not guarantee selection for projects. However, contracts will not be written if a consultant has not completed the screening process.

Financial screening consists of the following. All items must be completed and submitted for review.

1. Complete the financial screening application.
2. Submit a form W-9 with Federal Tax I.D. number, signature and date.
3. Provide a sample copy of a labor time sheet.
4. Complete the financial screening questionnaire.
5. Furnish an overhead rate (Schedule of Indirect Costs) development schedule in accordance with the Federal Acquisition Regulations (FAR). (An example format copy is attached.)
6. Provide a certified copy of an independent Schedule of Indirect Costs (Overhead Rate) audit report from a Certified Public Accountant or an independent accounting firm. (Example copy attached.)

Note: To obtain a contract for projects over \$250,000 an independent overhead rate audit is required. However, the independent audit report is not required if desiring contracts for less than \$250,000.

7. Submit a copy of the firm's chart of accounts, from the accounting system.
8. Submit the most recent annual financial statements (balance sheet and income statement) that provide support in the calculation of the overhead rate.
9. This application is intended to be simple and inexpensive. Please submit your application in an unbound format, on 8-1/2" x 11" paper, stapled or clipped in the upper left hand corner; or electronically via e-mail in MicroSoft Word or .pdf format.

To become financially screened, complete the eight items listed above and submit them to:

**Mike Hanni  
Utah Department of Transportation  
Consultant Services  
4501 South 2700 West  
P.O. Box 148490  
Salt Lake City, Utah 84119-8490**

(or use our physical location for courier or express delivery)

**4501 South 2700 West  
Salt Lake City, Utah 84119**

Please submit unbound applications, printed on 8-1/2 X 11" paper, stapled or clipped in the upper left-hand corner.

Failure to respond timely to information requests, not fully completing an application, or failure to submit all necessary documentation will delay the review process or even disqualify a Consultant from becoming financially screened.

For your convenience an MS Word copy of the financial screening application is available on-line at [www.udot.utah.gov/go/csforms](http://www.udot.utah.gov/go/csforms), you may request a copy via e-mail at [mikehanni@utah.gov](mailto:mikehanni@utah.gov) or call Mike Hanni at (801) 965-4138.

If you need information or would like a copy of Title 48, Part 31 Cost Principles of the Federal Acquisition Regulations (FAR) you may use the following web site - [http://www.access.gpo.gov/nara/cfr/waisidx\\_04/48cfrv1\\_04.html](http://www.access.gpo.gov/nara/cfr/waisidx_04/48cfrv1_04.html).

When the financial screening review is complete, an agreement letter is sent to the consultant with the overhead rate verification and place for the consultant's signature. Your signature indicates that you are in agreement with this overhead rate to be used for billing purposes. Please note, the final overhead rate is subject to the terms of the project contract and may be adjusted pending the results of a post project audit, if applicable. Return the signed agreement letter as soon as possible to the Consultant Services Financial Analyst.

Annually, Consultant Services will notify consultants of their forthcoming financial screening expiration date. At that time, the Consultant may:

1. Submit a new completed financial screening application including updated financial statements and a new calculated overhead rate. If a consultant is already under contract with UDOT, financial screening is required.
2. Request that their name be removed from the Consultant Pool List if they no longer desire to do project work with UDOT.
3. Provide no response, since it is not necessary to be financially screened until awarded or selected for project work. At that time the financial screening application must be submitted and agreed upon within 14 days after being selected or awarded for a project. Keep in mind that if the financial screening is not completed and agreed upon in advance, this will delay the contracting process.

You may access Consultant Services internet home page at [www.udot.utah.gov/go/consultantservices](http://www.udot.utah.gov/go/consultantservices). On this website you may download the Financial Screening Application complete with examples. In addition, you will find more information about the financial screening process, Requests for Qualification, the Qualified Consultant List, project advertisements, questions and answers, and other general information at this web site.

Information regarding General Service Administration travel per diems can be found at [http://www.gsa.gov/Portal/gsa/ep/contentView.do?P=MTT&contentId=14161&contentType=GSA\\_OVERVIEW](http://www.gsa.gov/Portal/gsa/ep/contentView.do?P=MTT&contentId=14161&contentType=GSA_OVERVIEW) to assist you in determining qualified travel expenses.

## **POOL SELECTION PROCESS**

To meet its project schedule, UDOT uses Consultants to supplement its design and construction efforts. Being financially screened does not mean you will be automatically used on projects without going through the standard selection process. Firms must complete the financial screening process before contracts will be written. To select Consultants, we have set up the following procedure:

1. Firms that have been accepted as part of the Consultant Pool are eligible for project work on small dollar amount contracts (Less than \$600,000). This pool is selected every two years. The current General Engineering/Local Government Pool period began on July 1, 2007 and expires June 30, 2009. Pool dollar caps have been set at \$2,500,000 and \$1,800,000, respectively.

To qualify for larger dollar amount projects, (over \$600,000) a Consultant must go through the normal Request For Qualifications (RFQ) or Request for Letters of Interest (LOI) process by submitting a Statement of Qualification (SOQ) or LOI for various work disciplines as advertised on our website. There is no dollar cap on RFQ and RLOI projects.

2. Consultants are selected based on qualifications, experience and by submittal of an SOQ or LOI, and being able to negotiate a fair and reasonable compensation for the project with UDOT.
3. UDOT uses a qualification-based procedure to select Consultants for RFQ or RLOI projects to perform specific advertised work. This procedure consists of:
  - a. Short-listing Consultants by their submitted SOQs or LOIs; and
  - b. Having an interview by the Selection Team
4. Consultants who are part of the General Engineering Pool have already been selected based on qualifications in their submitted SOQ. UDOT Project Managers select Consultants for small dollar projects (less than \$600,000), from the qualified work discipline lists.
5. Local Government projects – UDOT is the management agency for Federal, State, and Local Government projects. Local Government agencies can select Consultants from the following three sources:
  - a. The Local Government Request For Qualification (LG-RFQ) process;
  - b. The Consultant General Engineering/Local Government Pool; or
  - c. The Engineer of Record (EOR) in which the Local Government agency requests UDOT Consultant Services to advertise an EOR selection through an RFQ, for federally funded transportation projects.

**INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE  
OF INDIRECT COSTS**

**(EXAMPLE FORMAT)**

*(This letter should be on accounting firm or independent CPA letterhead.)*

*(This report is from the AASHTO Uniform Audit and Accounting Guide For Transportation Consultants dated December 2005)*

We have audited the Schedule of Indirect Costs for \_\_\_\_\_ for the fiscal year ended \_\_\_\_\_. This schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the financial audit standards contained in the Government Auditing Standards issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule of Indirect Costs. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying schedule was prepared on a basis of accounting practices prescribed by Part 31 of the Federal Acquisition Regulations (FARs) and certain other federal and state regulations and is not intended to be a presentation in conformity with generally accepted accounting principles.

In our opinion, the schedule referred to above presents fairly, in all material respects, the direct labor, fringe benefits, and general overhead of the Company for the year ended \_\_\_\_\_.

In accordance with the Government Auditing Standards, we have issued a report, dated \_\_\_\_\_ on our consideration of the Company's internal controls and its compliance with laws and regulations.

This report is intended solely for the use and information of the Consultant and government agencies or other customers related to contracts employing the cost principles of the Federal Acquisition Regulations (FARs) and should not be used for any other purpose.

Note 1: Federal income taxes and excess profits taxes are unallowable as well as taxes associated with financing, refinancing, funding, and reorganizations. State and local income taxes are allowable.

Note 2: There are certain professional and consultant services costs performed that are unallowable. (e.g. legal litigation expenses)  
In order for these costs to be considered allowable, the nature and scope of the services rendered must be in relation to the service required and must be of necessity and reasonable.

Note 3: Costs for travel including meals, lodging, and incidental expenses are allowable subject to limitations based on the Federal Travel Regulations in regards to mileage rates, actual per diem, lodging, transportation, or a combination thereof. Travel expenses must not exceed on a daily basis the maximum per-diem rates, airfare, vehicle mileage, and lodging. To obtain these rates, please contact Henry L. Bryan at (801) 965-4138.

**NOTE:**

Utah State Transportation and Administrative Rule R907-66 defines key management officers whose bonuses or incentive compensation cannot be reimbursed on cost-reimbursable contracts with consultant engineering firms. Bonuses and incentive compensation for key management officers are not eligible for reimbursement. Key management officers includes: owners, presidents, chief executive officers, or other individuals who act in a similar management capacity. Bonuses or incentive compensation for **non-key** management employees may be eligible for reimbursement if: (1) the consultant enters into an agreement with its employees pursuant to an established plan or policy before the services are rendered, (2) the agreement establishes the terms by which the consultant pays bonuses or incentive compensation to employees, (3) the basis for payment of bonuses or incentive compensation is supported and documented, (4) the bonuses or incentive compensation are reasonable. **UDOT will remove ineligible bonus/incentive compensation from the overhead cost pool when developing the allowable overhead indirect cost rate. (Please see the attached Bonus Administration Rule R907-66)**

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

## Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. person (including a U.S. resident alien).

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. (See the instructions on page 4.)

## Purpose of Form

A person who is required to file an information return with the IRS, must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

**U.S. person.** Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee.

In 3 above, if applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

**Note.** If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

For federal tax purposes, you are considered a person if you are:

- An individual who is a citizen or resident of the United States,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States, or
- Any estate (other than a foreign estate) or trust. See Regulations sections 301.7701-6(a) and 7(a) for additional information.

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
